

Seedling Sales Program

What will be there?

The species we grow are primarily reforestation species that are native to the Northwest. We expect to have some popular Christmas tree varieties. See species list.

HOWEVER — we cannot guarantee exactly what we will have as it is dependent on weather and soil conditions at our nurseries prior to the sales.

What species?

We expect to have the following species available for sale this spring:

- Austrian pine
- Balsam fir
- Canaan fir
- Colorado blue spruce
- Corkbark fir
- Douglas fir
- Fraser fir
- Giant sequoia
- Grand fir
- Korean fir
- Nikko fir
- Noble fir
- Norway spruce
- Ponderosa pine
- Sitka spruce
- Western hemlock
- Western red cedar
- White fir

 Weyerhaeuser

Seedling Sales Program

Oregon

Nursery Site Sales

In Oregon, there will be two sales at our Aurora Nursery

The first sale will be **Saturday, February 13, 2010** and the second sale will be **Saturday, March 13, 2010**. Trees may be purchased in full bag or box quantity and/or individually. There are no advance sales.

NOTE: Educational demonstrations and informational displays are planned. Please visit www.myseedlings.com closer to sale dates for details.

Sale Times

The sales will begin at 8:00 a.m. and continue until 12:00 noon for both sales.

Bulk Quantity

If you are interested in larger quantities, you may buy directly at the Aurora Nursery site **starting Monday, February 15, 2010**. The nursery hours are 8:30 a.m. to 4:00 p.m., Monday through Friday. Please call the nursery at (503) 266-2018 in advance to confirm availability.

More Information

For additional information, please visit www.myseedlings.com or, call the Aurora Nursery at (503) 266-2018.

Washington

Nursery Site Sales

In Washington, there will be two sales at our Rochester Greenhouse

The first sale will be on the President's Day holiday, **Monday, February 15, 2010**. The second sale will be **Saturday, March 20, 2010**.

Trees may be purchased in full bag or box quantity and/or individually. There are no advance sales.

Seedling Sales Program

Sale Times

The sales will begin at 8:00 a.m. and continue until 12:00 noon for both sales.

Bulk Quantity

In Washington, you may call Tree Management Plus if you are looking for seedlings in quantities less than 5,000. Their number is (360) 978-5118. Hours are 8:00 a.m. to 5:00 p.m., Monday through Friday. If you are looking for 5,000 or more, call Terry Smith, Washington Sales Manager at (360) 273-5527 ext. 102.

More Information

For additional information about the Rochester sales, please visit www.myseedlings.com, or call Janet Wendt at (800) 732-4769, option 0.

»» Payment Method

Payment at all sales is by cash or check only.

»» Purchase Procedure

All sales are on a first come, first served basis. No advance orders will be accepted.

»» Some Stock May Be Limited!

Quantities on some stock may be limited. The availability of specific species for the site sales is subject to weather.

»» Pricing

For individual trees, all species are \$.75 each. For full bag or box quantities, prices vary from \$.25 - \$.55 each depending on stock type and quantity per bag.

»» Tax Exempt?

In Washington, we must charge sales tax unless you have your tax exemption ID or Oregon driver's license.

Seedling Sales Program

Please explain...

What's a plug seedling?

When someone refers to a plug seedling, they are referring to a tree grown in a small container (2-5 cubic inches) usually for one growing season, inside a greenhouse. Seedling height ranges from 3 to 12 inches.

What's a bareroot?

This stock has been grown in an outdoor nursery and packed without soil on the roots. This stock can be either 1, 2 or 3 years old. Seedlings are generally classified by age in the seed bed and age in the transplant bed. Seedling height ranges from 6 to 20 inches.

What's a transplant?

Transplants are trees that were grown for 1 or 2 years in a seed bed and then transplanted at a wider spacing into a transplant bed. This would include a Plug+1 (grown first year in a greenhouse), 1+1 or a 2+1. Transplants generally have a root system made up of more fine roots and will typically exhibit better first year growth and survival than a bareroot. Seedling height ranges from 6 to 30 inches.

Nursery stock type nomenclature

1+0	1 year seed bed
2+0	2 year seed bed
1+1	1 year seed bed + 1 year transplant bed
2+1	2 year seed bed + 1 year transplant bed
P+1	1 year plug + 1 year transplant bed
Plug	1 year old, container

Planting Sites

Shady areas? If you're looking for a tree to plant in an area that doesn't get much sun, try a Western hemlock or a Grand fir. Cedar would be another option.

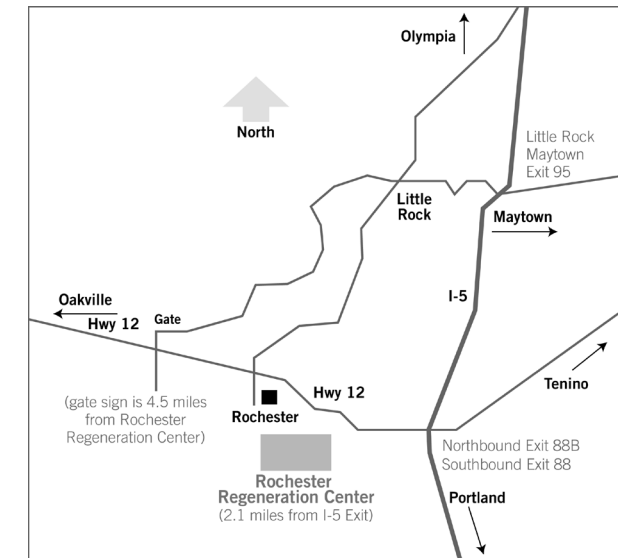

Wet areas? For those wet areas that may have some standing water or poor drainage, try Grand fir or Lodgepole pine.
